Webinar Overview

This webinar aims to showcase the Tunisian experience in cerebral palsy management, which has significantly evolved in recent years. Based on international guidelines and adapted to the country's social and organizational context, the Tunisian model emphasizes a multidisciplinary, structured, and inclusive approach. Through the presentation of care pathways, intensive rehabilitation strategies, and spasticity management innovations, this event offers a valuable opportunity for professionals across the Arab region to exchange on evidence-based and context-sensitive practices.

Program

1. **A Comprehensive Care Pathway for Cerebral Palsy in Tunisia: Multidisciplinary and Continuity Pr Imen Miri.**
2. **Intensive Rehabilitation in CP: From International Guidelines to Tunisian Practices. Pr Fatma Zohra Ben Salah.**
3. **Current Advances in Spasticity Management in Cerebral Palsy: Insights from the Tunisian Context. Pr Catherine Dziri**
4. **Discussion**
